Tammy Donnelly service description:

Provision of mobile physiotherapy services in the client's home, school or community environment in the Rockingham area. Special Interest in but not limited to developmental paediatric issues such as developmental delay, cerebral palsy, neuromuscular diseases as well as genetic disorders.

I have extensive experience working with both children and adults. I provide a small but comprehensive, family-centred physiotherapy service to meet the needs of each individual. I aim to work in close partnership with families to provide them with quality goal-orientated and evidenced based care with the added convenience of travelling to the client.

Comprehensive assessment and intervention takes place in close collaboration with other health professions to support clients in reaching their goals and maximise their functional capacity. A firm focus of my service is promoting an individual's strengths and abilities whilst providing them with support and interventions to improve their areas of need.
