

WA National Disability Insurance Scheme

NDIS in WA model design

How will people with disability be involved in the development of the NDIS in WA?

From February there will be a series of workshops to provide more information and respond to Questions about the Agreement. Dates and Venues will be published soon.

In May there will be a NDIS in WA conference. The conference will discuss how we work together on developing the NDIS in WA. There will also be an opportunity to discuss key areas such as legislation.

Will there be ongoing opportunities to contribute to the model development?

Yes. We have some thoughts about a reference group structure with sub-groups on specific topics. We want to take this to the conference and discuss what mechanisms will work best for people. We know that it is really important that as many people as possible have the opportunity to contribute to these processes so we are looking to do things differently.

What subjects will be discussed?

We want to agree priorities for the work with people with disability. We will also be developing the conference agenda in partnership.

How will people be selected to participate in the ongoing model development?

We want to discuss this with people at the conference. The priority is to have a representative spread of people from across the State and representing different types of disability.

How do I find out more?

We will keep you updated through the website and the WA NDIS Facebook page.
